MarvelPeel®

Another PurePlay package program from Berry Plastics

Berry Plastics Corporation, an industry leader in the manufacture and design of rigid closed and open-top containers, is pleased to further expand our offering to become a full-line packaging provider. With the introduction of MarvelPeel® membrane lidding films produced at our Columbus, Georgia facility, Berry provides a top-to-bottom product package solution including the CONTAINER, the SEAL and the LID!

MarvelPeel® membrane structures can be designed to provide peelable or weld seal bonds to a variety of substrates such as PET, HDPE, PVC, Polypropylene, HIPS, and more! Our developers will engineer a custom MarvelPeel® product to provide the right balance of peel and barrier properties while making sure the structure performs under the seal conditions present in your operation. We currently offer products used in a variety of applications including:

- Food (dairy products, dips/sauces, dry foods, pasta & more)
- Industrial & Household (air fresheners, toner & more)
- Pharmaceutical & Personal Care (disposable razors, dose packs & more)

In addition, MarvelPeel® structures are available in roll stock, die-cut and daisy chain formats in sizes and packaging configurations that work best for your needs.

• MULTI-LAYER LAMINATIONS USING FOILS, FILMS AND PAPERS.

• SUITABLE FOR PACKAGING OF FOOD, HOUSEHOLD, PERSONAL CARE AND INDUSTRIAL PRODUCTS, PHARMACEUTICALS AND MORE!

• CUSTOMIZED FOR BARRIER PROPERTIES, SEAL CONDITIONS, AND PEEL REQUIREMENTS

• ROLL STOCK, DIE-CUT & DAISY CHAIN FORMATS AVAILABLE

• 6-COLOR FLEXO SURFACE OR REVERSE PRINT
