The Safe and Reliable Cooking Alternative From FancyHeat®

FancyHeat introduces the most exciting addition to outdoor cooking in recent years, The Portable Gas Stove by FancyHeat is an economical, highly efficient outdoor/indoor portable gas cooking stove. Fueled by a self-contained canister of butane fuel, your gas stove burns clean and odorless, with a high heat output of more than 10,000 BTU.

Your new portable stove is safe and easy to use, and goes anywhere. Great for camping, tailgating, backyard/patio and more. With a gas stove used next to your charcoal or gas grill, you'll have the convenience of a kitchen stove right on your patio or backyard. Now you can prepare all your stove top foods outdoors without ever having to leave your guests.

The FancyHeat stove, with it's easy to store fuel and compact stove design, has become a necessary addition to your emergency equipment supplies. This easy to use appliance provides a reliable cooking system during electrical/gas outage and many unpredictable natural disasters. Your new Portable Gas Stove features: automatic ignition, full range flame control, easy clean porcelain finish, extra large cooking surface, and included FREE, a handy carrying case.
