

Harvest™ Starch

*Responsible, Renewable, Reliable
Hybrid Food Service Packaging*

*Quality
To Go!®*

Our new Harvest™ Starch line of hinged containers, dinnerware and cutlery addresses customer needs to be greener while still maintaining all the product advantages required, such as microwavability, cut resistance, secure closures and a non-absorbant finish.

We achieved this enhanced environmental package with a unique hybrid material formula which reduces the polypropylene material normally used by up to 60% with natural, annually renewable starches.

In addition, our dinnerware lids are produced from #1 recyclable PET that contains up to 40% post consumer recycled material content.
