INTERNATIONAL  PAPER

Foodservice Business

ecotainer[®]
Product Line

ecotainer®

Making a difference one cup at a time.®

International Paper's ecotainer® packaging products are sourced from fully renewable resources and made entirely in the USA. The fiber comes from responsibly managed forests through a procurement system that meets Sustainable Forestry Initiative® (SFI®) Chain of Custody standards, while the cup coating and lids use Ingeo™ biopolymer, a naturally advanced plant based material. This combination makes ecotainer a fully compostable package in commercial composting facilities*, which can reduce the amount of waste going to landfills.

The ecotainer product line includes cold cups and lids, hot cups and lids, Cup Buddy® sleeves, and food containers and lids. All products are available in a variety of sizes and can be customized to enhance your brand.

You can feel good about doing business with International Paper knowing we offer the security of supply, innovation and quality you deserve. We have partnered with leading industry organizations like the Foodservice Packaging Institute's Paper Recovery Alliance and the US Composting Council to advance the recovery rates of our products.

ecotainer products hold the promise of a more sustainable future. And that's not just great for the planet, it's great for business.

*Composting facilities may not exist in your area. Visit findacomposter.com to find a facility.

FEATURES	BENEFITS
<ul style="list-style-type: none"> • Uses fully renewable resources - fiber from responsibly managed forests and Ingeo™ biopolymer. 	<ul style="list-style-type: none"> • Reduces dependence on petroleum based products and complements operator sustainability programs.
<ul style="list-style-type: none"> • Made in the U.S.A. 	<ul style="list-style-type: none"> • Reduces the use of fuel and emissions compared to products shipped from overseas. • Domestic manufacturing supports the local economy and creates jobs.
<ul style="list-style-type: none"> • Complies with ASTM standards for compostability. 	<ul style="list-style-type: none"> • Meets many municipal packaging sustainability requirements. • Certifies that our products can be commercially composted where facilities exist, reducing the amount of waste to landfill.
<ul style="list-style-type: none"> • Certified by the Biodegradable Products Institute (BPI®). 	<ul style="list-style-type: none"> • Third-party validated to meet stringent industry standards.
<ul style="list-style-type: none"> • Meets Sustainable Forestry Initiative® (SFI®) Chain of Custody standards. 	<ul style="list-style-type: none"> • Guarantees responsible forestry practices are followed.
