

Compostable Bagasse Blend Hot Cup Lid

| FEATURES | BENEFITS |
|--|---|
| Fiber (Paper) Material | Product is made of a blend of Bagasse (Sugar Cane) and Bamboo which are sustainable, annually renewable resources |
| Fully Compostable in Municipal and Industrial Facilities Where Available | ASTM D 6868 certified & compostable in commercial facilities only, which may not exist in all areas. Not suitable for backyard composting |
| Strong, Tight Fit | Offers durable construction for multiple hot cup applications |
| All Natural White Appearance | Provides a brilliant, white exterior |
| Soak Through Resistant Design | Resists grease, moisture and helps eliminate messy leaks |
| Fits 10, 12, 16 & 20 oz. PLA Paper Hot Cups | Saves valuable space |

These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
